

# WT5400 Wearable Computer

Bring comfort and productivity to hands-free retail workflows

Give your store associates the hands-free freedom they need to pick more online orders, move inventory from dock to stock, re-stock front of store shelves and more with the WT5400 Wearable Computer. The WT5400 is a purpose-built wearable computer with all the right features at the right price for store associates. Designed from the ground up as a wearable computer, the WT5400

maximizes comfort and productivity in all-day hands-free use cases as an alternative to handheld computers mounted on the wrist. The lightweight, balanced and compact size makes wearing the WT5400 practically effortless—virtually eliminating arm fatigue. At just over a half inch thick, the low profile makes it easy to reach just about anywhere without obstruction. Maximize productivity with the large and bright 4.7 in. display. Now, everything workers need to complete a task can fit on one screen, so there's less scrolling, less navigating through application screens—and more work done in every shift. Versatile wrist straps ensure a custom fit on every arm for unmatched all-day comfort. A powerful modern platform provides the performance you need for today's applications and future-proofing for years to come. It's rugged and ready for all-day everyday use. And only-from-Zebra Mobility DNA tools simplify every aspect of device lifecycle for IT and your users.
